Photo Keepsakes...

- ◆ Provides instant party favors for your guests to take home to remember your special event
- ◆ Aside from Photos in pocket folders, Photo Keepsakes can also provide Snow Globes, Frames, Magnets, Bobble Heads, Buttons, Key Chains, Dog Tags, Mugs and more

How it Works...

- ◆ Participants are photographed in front of a green screen
- ◆ Using a laptop computer and specialized software, a customized background is digitally layered over each photo
- ◆ This technique provides the illusion that the person is magically transported to another location!
- ◆ 5x7 photos are printed on location just seconds after they are shot

A Unique Concept...

- ◆ Each package is tailored to your needs with customized backgrounds to match your event theme
- ◆ Photos are produced on the spot using the latest digital photography and printing technology
- ◆ Guests leave with a 5x7 glossy photo inserted in a folder with a gold border or a customized folder
- ◆ Let your guests choose from a variety of backgrounds
- ◆ Using digital photography ensures a picture perfect keepsake every time – no blinks, no unwanted photos
- ◆ Multiple copies can easily be made of the same photo
